Housing Development

- Vision Georgetown is the urban boundary expansion project by the Town of Halton Hills. The Vision Georgetown study was initiated in 2013 with the Secondary Plan completed in Spring 2018.
    - It is a 404hectare (1,000 acre) parcel of land bounded by 15 Side Road to the north, 10 Side Road to the south, Trafalgar Road to the west and Eighth Line to the east.
    - In June 2017, a draft Preferred Land Use Concept was received by Town of Halton Hills Council and directed Town staff to initiate broad public engagement.
    - Based on the proposed residential units, it is projected that approximately 1,900 elementary and 550 secondary students will be generated and that four school sites will be needed by the Halton District School Board (three elementary sites each at 600 pupil places and one secondary site at 1,200 pupil places).
    - On July 9, 2018, the Town of Halton Hills adopted the by-law, Official Plan Amendment No. 32 (OPA 32), regarding the Vision Georgetown Secondary Plan. OPA 32 is now before the Region of Halton for consideration and approval.
    - The approved land uses in the secondary plans proposes a total of 6,646 residential units (a mix of low density – 44%, medium density – 41% and high density – 15%) and a population increase of 17,946 people by 2031.
    - These proposed residential units have been included in the projections for this review area with occupancies projected to start in 2025. Development applications impacts Pineview PS (ERA 126), Stewarttown PS (ERA 124), George Kennedy PS (ERA 125), Centennial PS (ERA 125) and Georgetown District HS (SRA 107).
- Other infill / intensification development applications are also included in the projections.
- An additional 5,879 units have been included in the projections to account for planned intensification beyond 2027 where development applications have not been submitted. It is assumed that the proposed additional applications will impact all schools.

NOTES:

Ethel Gardiner PS is projected to remain over-utilized. Under current boundaries and development phasing, it is projected that this school will remain over 100% OTG utilization and will require portables over the next ten years. This school's boundary includes the new development in South Georgetown which is continuing to be developed. ***Ethel Gardiner PS enrolments and developments will be monitored. If it is determined that Georgetown South #3 ps will be built, Ethel Gardiner PS should participate in the boundary review.***

Georgetown South #3 ps is subject to Ministry funding. This site is registered and owned by the Board. If the need for a new school is identified, the Board will need to submit a capital request to the Ministry of Education in order to obtain the requisite funding to construct the proposed Georgetown South #3 ps. ***Enrolments and developments in ERAs 124 and 125 will be monitored. If it is determined that Georgetown South #3 ps will be built, a Boundary Review will be required to be undertaken.***

OPA No. 32 (Vision Georgetown Secondary Plan) is currently before the Region for consideration and approval. It is projected that three elementary and one secondary school will be required. Long range projections assume that students will come from this area starting in 2025 but needs to be confirmed once the Region approves the plan. ***Progress of Vision Georgetown Secondary Plan will be monitored.***
