

Dear Junior Kindergarten Parent/Guardian,

The Halton District School Board is pleased to partner with the Ontario Association of Optometrists to bring to you and your family the *Eye See...Eye Learn* program this year. Eye See...Eye Learn is a **FREE** program that provides your junior kindergarten child with an eye exam and free glasses, if your child requires a pair. Please take a moment to watch this short video explaining how your child can participate in this worthwhile program.

As many as one in six children have a vision problem. Too often many children go unchecked and they struggle in school. Together, we can help every child see their world better.
