

New Milton High School Boundary Review

To: Parents/guardians of all Milton schools as well as Dr. Frank J. Hayden Secondary School and Kilbride Public School

Subject: Boundary Review for New Milton High School

Dear Parent/Guardian,

It has been a while since we last communicated with you about our boundary review for the new Milton high school. In January 2020, we formed a Boundary Review Committee and started the process to identify a boundary for the new Milton high school and changes to the boundaries of the two existing public high schools in Milton. Unfortunately, the work of this committee was paused due to the COVID-19 pandemic and as a result, we are unable to complete this work by Spring 2020 as originally planned.

We plan to continue the boundary review in September 2020. At that time, we will have a public information meeting to review boundary options and receive public input (please note this meeting may be a virtual format). Resuming this process in Fall 2020 will still allow us to bring a recommendation to the Board of Trustees in time for families to plan entry to high school and complete course selection in preparation for a September 2021 opening.

All current boundary preferred options are available on the Halton District School Board website at www.hdsb.ca (search: [Milton SW #1 hs](#)).

If you have questions about the new Milton high school boundary review, please email miltonsw1review@hdsb.ca.

Sincerely,

Boundary Review Co-Chairs:

David Boag
Associate Director of Education

Joanna Oliver

Trustee - Oakville - Ward 4

Gord Truffen
Superintendent of Education
