# Southwest Burlington Boundary Review

**BRC Meeting #3 - February 19, 2026**  
**6:30-9:00 pm**

# Honouring the Land and Territory

We begin by acknowledging the land and our responsibility to care for and respect all that provides us with life. This land upon which HDSB is situated is on the ancestral, treaty and title lands of the Anishinaabek Ojibwe Michizaagiig Nation, now known as the Mississaugas of the Credit. Michizaagiig territory in the past and present continues to host both Indigenous and non-Indigenous peoples.

The HDSB is committed to continuous knowledge building with respect to actions that address and resolve the ongoing impacts of colonialism. We do this by learning and understanding the true history, treaty obligations, duties and responsibilities and Indigenous Rights while actively maintaining mutually beneficial relationships and collectively respecting and caring for the land.

# Email Themes (Emails 20 to 31)

## What we have heard

### Between Feb 5 and Feb 19

- Concern about small cohort moving and potential for Legacy Exemptions
- Legacy Exemption current students
- Zone 4 concerns
- Opposition to removing FI from Tom Thomson PS
- Opposition to an Single Track FI at Tom Thomson PS
- Keeping students walking to school
- Opposition to attend Tecumseh PS
- Zone 11 to remain at Tecumseh PS
- Support for the Tom Thomson PS community
- Preference for FI at Central /Burlington Central
- Finding Information
- Secondary pathways should be prioritized
- What happens to staff? Staffing process.
- What are the anticipated Transition Plans once new boundaries are approved?
- Zone 9 concerns
- Addition to Tom Thomson PS
- Notification

# School Considerations

## Tom Thomson PS:

- Adding a second line for portable requirements to show under current conditions and 219 building capacity conditions.

## Central PS

- Currently 2 portables allowed on site
- Potential of 4 portables on site (to be confirmed through Architects)
- Now showing the projection with 2 portables.

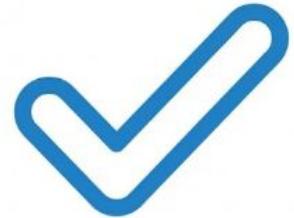

# Program Viability

## Ideal Enrolments for Programs - 2 classes / grade

### Enrolments Impacts

- Number of Staff and peers
- Number of volunteers
- Flexibility in moving between classrooms based on student needs
- Reduction in Number of split classes
- Sports teams and after school programs
- Diverse range in social peer groups
- Small number of students creates a greater potential for social isolation, and or challenges in meeting individual needs of students.

# French As a Second Language Programs - Administrative Procedure

## Intended Purpose

The Halton District School Board (HDSB) recognizes and supports the value gained from the learning of French as a Second Language. The French as a Second Language (FSL) Programs Administrative Procedure supports the implementation of the French as a Second Language Policy. It provides procedures to support the Board's commitment to Core French and French Immersion programs.

Section 3.9 Single track French Immersion schools are Grades 2 to 8.

## Conclusion:

Creating a single track French Immersion school would go against the current administrative procedure, requiring the school to convert to a 2-8 school to be a viable option. The Facility precludes this, given the facilities are not suitable for senior grades.

# Transportation

## Bussing at Central PS and Lakeshore PS

- **Lakeshore PS**
  - Currently 2 minibuses, small loading zone
  - *Increase Transportation*
    - Stagger arrival/departure to address loading zone capacity.
- **Central PS**
  - Currently 1 large bus
  - *Increase Transportation*
    - Stagger arrival/departure to address loading zone capacity.
    - Use Secondary loading zone (not preferred)

# Criteria and Discussion Review

## Existing Accommodation Pressures

# Criteria to Evaluate Options

Criteria to review options include but not limited to:

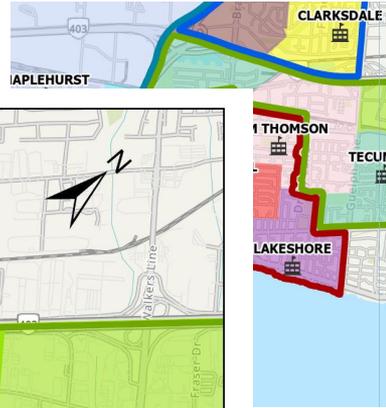

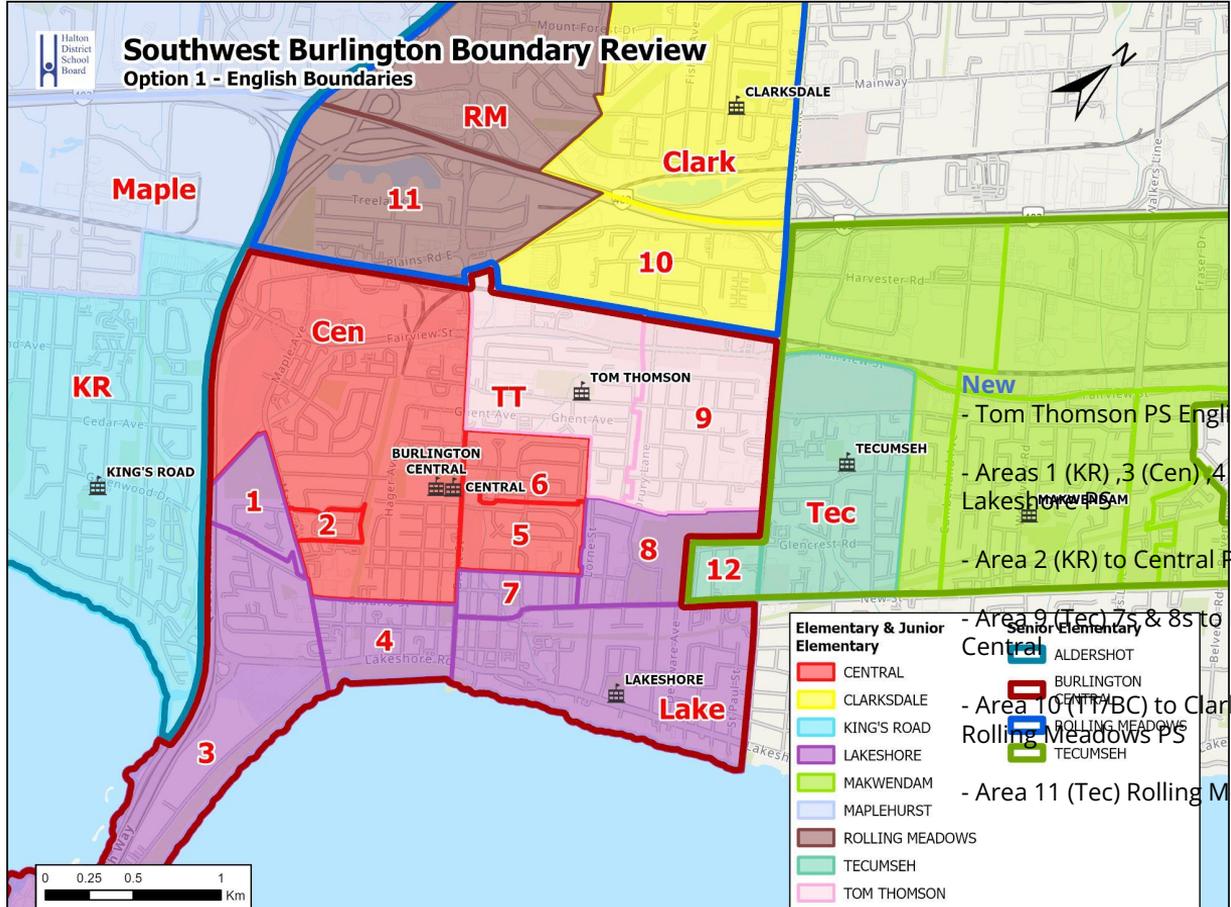

<p><b>Geographic Area and Barriers:</b> <i>Can boundaries comprised of multiple Zones that are geographically contiguous be created, taking into account any physical barriers (natural or constructed)?</i></p>	<p><b>Balance of Overall Enrolment:</b> <i>Is student access to programs, resources, and extracurricular opportunities optimal? Is over and underutilization of buildings avoided to the extent possible, reducing where possible the use of portable classrooms in the short, medium and/or long-term?</i></p>
<p><b>Viability of Programs:</b> <i>Can the number of students required to offer and maintain a program in an educationally sound and fiscally responsible way be maintained?</i></p>	<p><b>Stable Long-Term Boundaries:</b> <i>Do the projections show long-term stability and result in avoiding the need for additional boundary changes in the short term?</i></p>
<p><b>Student Experience:</b> <i>Can the number of school moves students have experienced be minimized? Can cohorts/families be kept together? What strategies can be employed to improve the transition of students resulting from a boundary review process?</i></p>	<p><b>Proximity to Schools:</b> <i>Are there opportunities for maximizing walk-to schools, safe school routes, and incorporating natural boundaries into the proposed options? Can transportation requirements and costs be minimized?</i></p>
	<p><b>Other:</b> <i>Other criteria recommended by the BRSC or BRC</i></p>
