

Tom Thomson PS

Burlington Central (7-12), (ENG & FI)

School Stats

Enrolment: 405
 Building Capacity: 219
 Max. Site Capacity: 426
 Max # of Portables: 9
 Utilization (2025/26): 185%
 No. of Classrooms: 6-9*
 2025/26 Classrooms: 18**
 *Excludes SPED and portables
 **Includes portables

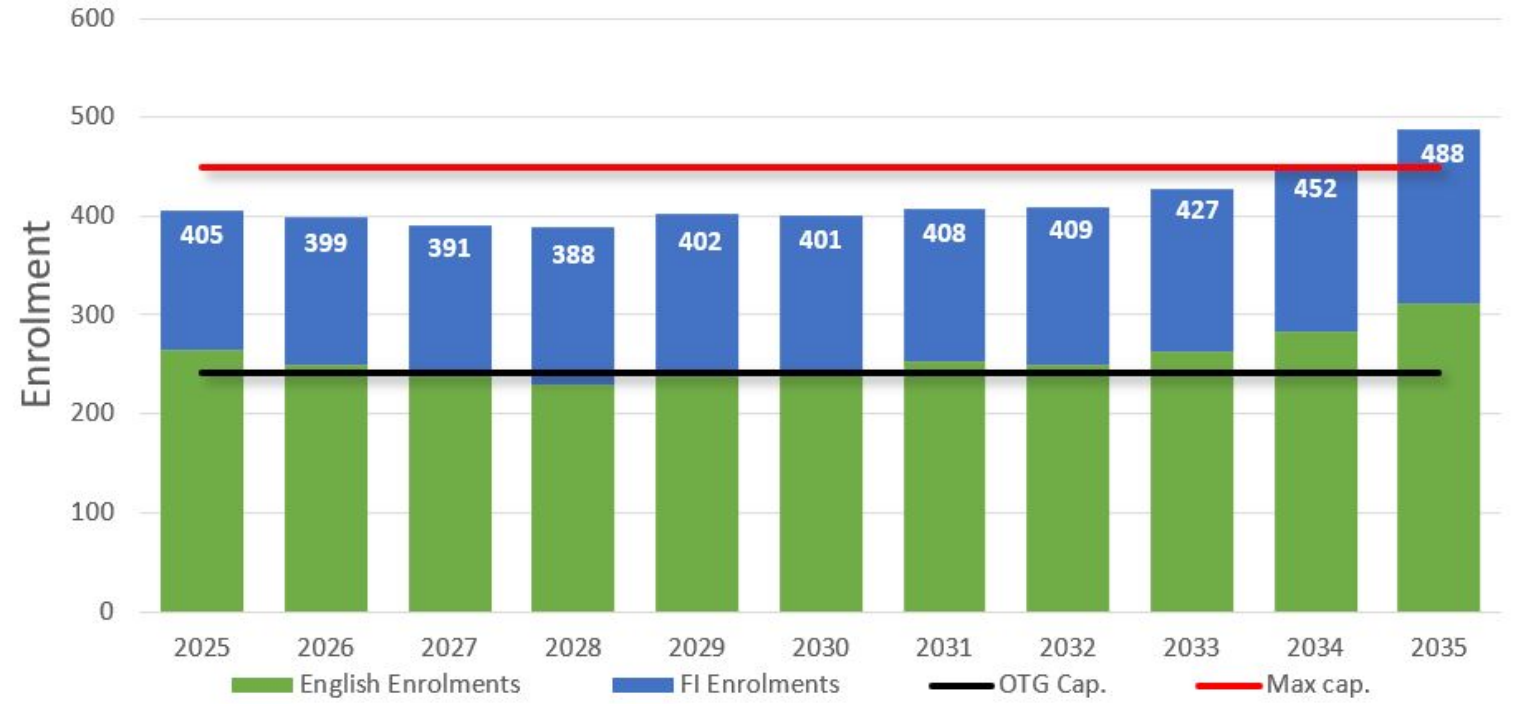

Why is my school involved?

Tom Thomson PS is currently operating beyond its capacity, leading to a loss of green space as portables occupy the school grounds. With enrolment projected to approach maximum limits, a boundary review is necessary. Our goal is to balance enrolment across nearby schools by evaluating program locations and attendance boundaries to ensure a high-quality learning environment for all students

Current Accommodation Scenario:

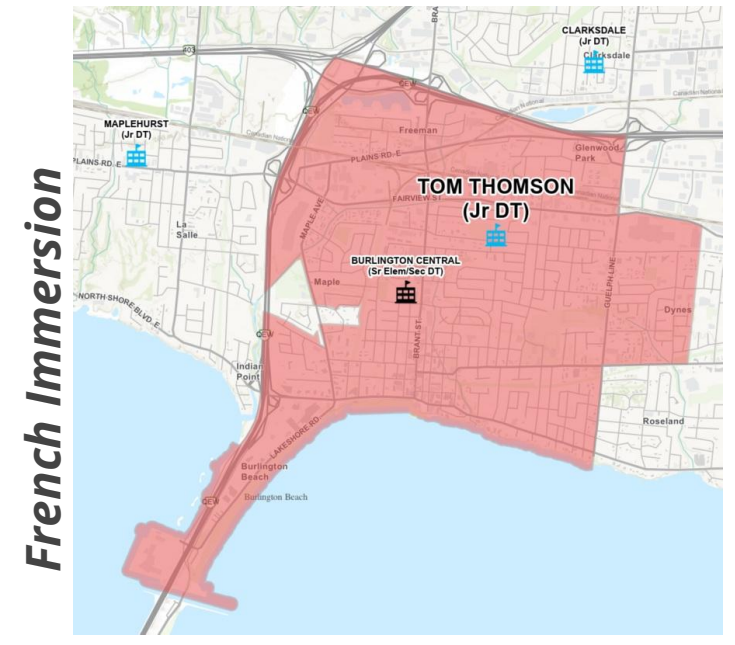

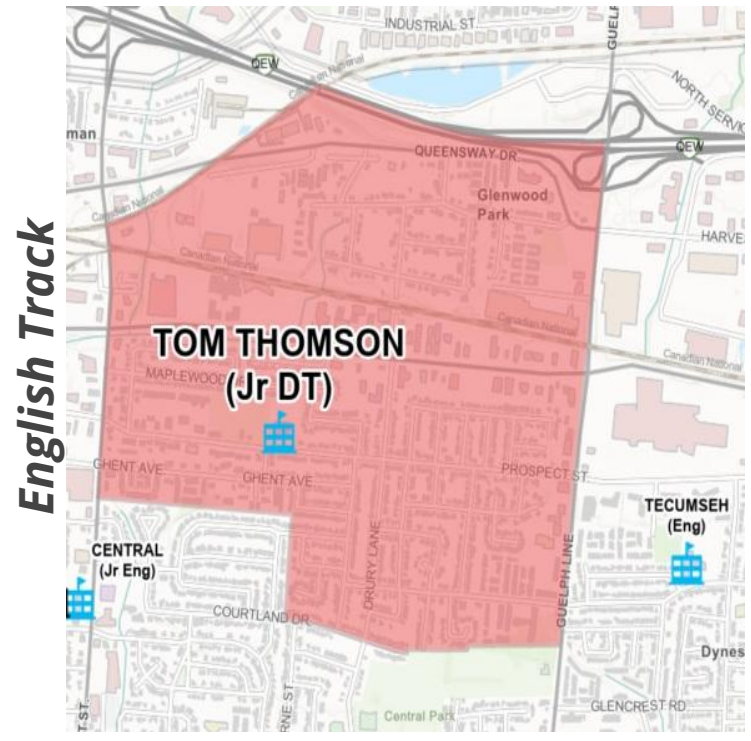

A K-6 school located on Prospect Street. Current projections demonstrate increasing enrolments as a result of new development and though students electing FI from neighbourhood schools. Grade 6 students are directed to Burlington Central for grades 7 to 12 or Tecumseh PS 7-8.

K-6

Why is my school involved?

Central PS is included in the boundary study to assess opportunities for enrolment rebalancing across local schools. This means the school's designated attendance zone may be adjusted, potentially leading to students being added or removed. Furthermore, the review will address the long-term placement of the French Immersion (FI) program, which could impact the current Grade 1 to Grade 2 FI pathway at this location.

Current Accommodation Scenario:

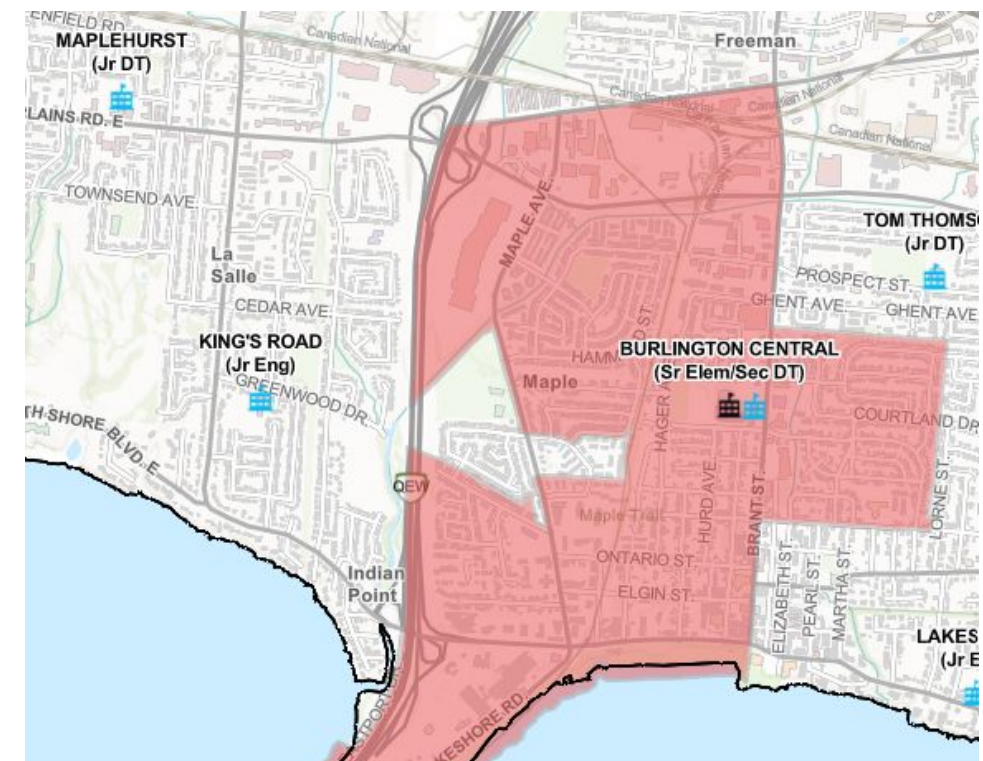

A K-6 school located on Brant Street at Baldwin Street. Current projections show a near-term dip, with student numbers temporarily falling below 90% capacity, but the school is expected to experience significant enrolment growth after 2031 driven by new condo developments. Grade 6 students are directed to Burlington Central for grade 7 to 12. Students electing French Immersion program are directed to Tom Thomson PS, Burlington Central (7-12).

Why is my school involved?

King's Road PS is included in the boundary study to assess opportunities for enrolment rebalancing across local schools. This means the school's designated attendance zone may be adjusted, potentially leading to students being added or removed. Furthermore, the review will address the long-term placement of the French Immersion (FI) program, which could impact the current Grade 1 to Grade 2 FI pathway at this location.

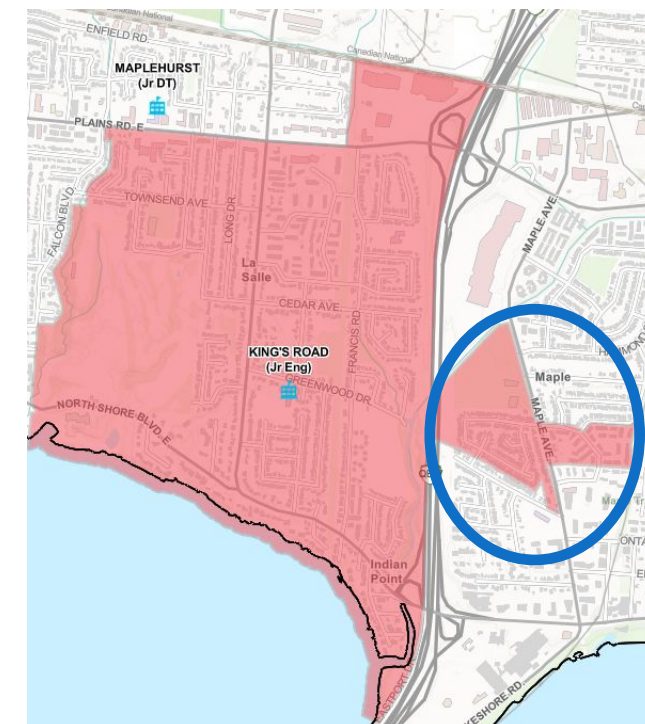

The boundary west of the QEW will not be impacted (see blue).

Current Accommodation Scenario:

A K-6 school located on Greenwood Drive, west of the QEW. Current projections indicate a stable to a slow decrease in enrolments. The grade 6 cohort is split between Aldershot and Burlington Central for grades 7 to 12. Students electing French Immersion program are directed to Maplehurst PS, Burlington Central (7-12).

7

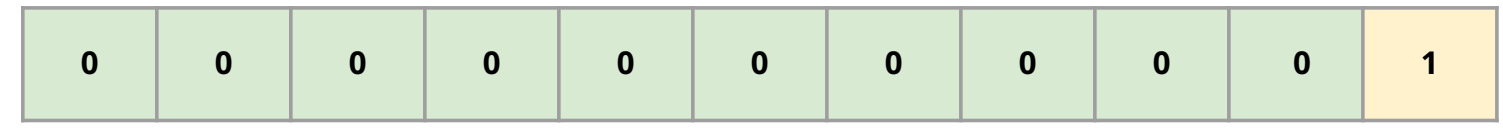

Why is my school involved?

Aldershot Elementary School (7-8) is included in the boundary study to assess opportunities for addressing split cohort issues for students that attend King's Road PS, which live east of the QEW. This means the school's designated attendance zone may be adjusted, potentially leading to students being *added* to Aldershot Elem.

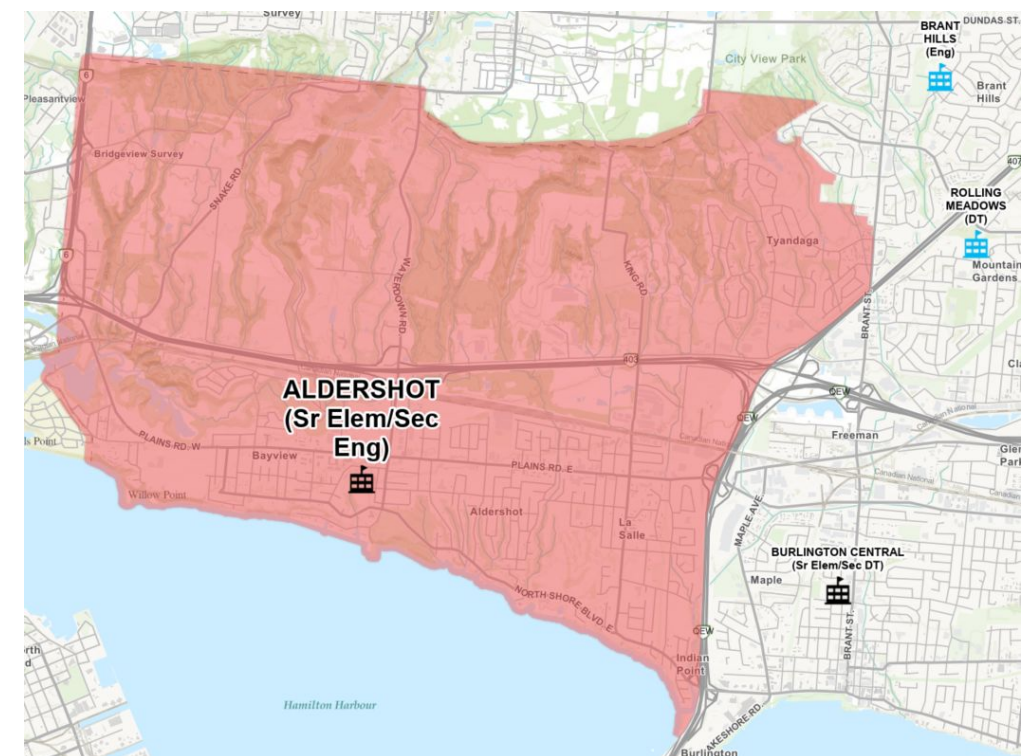

Current Accommodation Scenario:

Aldershot Elem is the grade 7 & 8 portion of Aldershot (7-12). The school is located on Fairwood Place West, just south of Plains Road. Enrolments are projected to remain stable near its room allotment capacity. Feeder schools include Glenview PS, King's Road PS, and Maplehurst PS (ENG)
