Southwest Burlington Boundary Review

BRC Meeting #5 - March 4, 2026

6:30-9:00 pm

Honouring the Land and Territory

We begin by acknowledging the land and our responsibility to care for and respect all that provides us with life. This land upon which HDSB is situated is on the ancestral, treaty and title lands of the Anishinaabek Ojibwe Michizaagiig Nation, now known as the Mississaugas of the Credit. Michizaagiig territory in the past and present continues to host both Indigenous and non-Indigenous peoples.

The HDSB is committed to continuous knowledge building with respect to actions that address and resolve the ongoing impacts of colonialism. We do this by learning and understanding the true history, treaty obligations, duties and responsibilities and Indigenous Rights while actively maintaining mutually beneficial relationships and collectively respecting and caring for the land.

Criteria and Discussion Review

Existing Accommodation Pressures

Criteria to Evaluate Options

Criteria to review options include but not limited to:

<p>Geographic Area and Barriers: <i>Can boundaries comprised of multiple Zones that are geographically contiguous be created, taking into account any physical barriers (natural or constructed)?</i></p>	<p>Balance of Overall Enrolment: <i>Is student access to programs, resources, and extracurricular opportunities optimal? Is over and underutilization of buildings avoided to the extent possible, reducing where possible the use of portable classrooms in the short, medium and/or long-term?</i></p>
<p>Viability of Programs: <i>Can the number of students required to offer and maintain a program in an educationally sound and fiscally responsible way be maintained?</i></p>	<p>Stable Long-Term Boundaries: <i>Do the projections show long-term stability and result in avoiding the need for additional boundary changes in the short term?</i></p>
<p>Student Experience: <i>Can the number of school moves students have experienced be minimized? Can cohorts/families be kept together? What strategies can be employed to improve the transition of students resulting from a boundary review process?</i></p>	<p>Proximity to Schools: <i>Are there opportunities for maximizing walk-to schools, safe school routes, and incorporating natural boundaries into the proposed options? Can transportation requirements and costs be minimized?</i></p>
	<p>Other: <i>Other criteria recommended by the BRSC or BRC</i></p>
