External Students - Complete this course selection sheet and endorse your approval with your signature below:

Parent/Caregiver Signature	Date (yyyy/mm/dd)

Course Information

More information about course types is available in the HDSB Guide to Secondary School on page 4. HDSB eLearning (online) course offerings can be found at eLearning in HDSB. For current HDSB students, course descriptions and Ontario Secondary School Diploma (OSSD) requirements can be found on mybluepprint.ca/halton.

Academic Courses (Coded 1D1)	There is a focus on the essential concepts of the discipline plus additional related concepts. Academic courses develop students' knowledge and skills by emphasizing theoretical, abstract applications of the essential concepts while incorporating practical applications.
De-streamed Courses (Coded 1W1)	De-streamed courses equip all students with the knowledge, skills, and habits of mind to be successful in academic or applied courses in Grade 10.
Open Courses (Coded 1O1)	Open courses in Grades 9 are offered in all subjects other than those offered as De-Streamed, Academic or Single Streamed. An open course has a set of expectations that is suitable for all students at a given grade level. These courses are designed to provide students with a broad educational base.
AP Prep Courses (Course codes ending in P)	Courses ending in 'P' are designated as AP Prep courses. Students accepted into AP Prep can choose which AP Prep courses suit their needs. Admission to the AP Prep program is via an application process.
APEX Courses	Clustered APEX Courses: T = Female, U = Male **Required APEX Courses in Gr. 9:** PPL1OT or PPL1OU Admission to the APEX is via an application process.
Gifted Cluster Courses	Courses ending in '5' are designated courses for students in the Gifted Cluster who have an IEP with the Identification of Gifted.
eLearning Courses	eLearning courses are delivered by an HDSB teacher in an asynchronous, online learning environment. It is recommended that students selecting eLearning courses have strong learning skills in self-regulation, organization, and time management. Students who select an eLearning course will have an unscheduled and unsupervised period in their timetable to work on their chosen eLearning course. These courses codes end in O.

All subjects within HDSB are taught in learning environments that promote inclusive education, and identify and eliminate discriminatory biases, systemic barriers, and power dynamics that limit the ability of students to participate, learn, grow, and succeed. All students see themselves reflected in the curriculum, their physical surroundings, and the broader environment, so that they are engaged in and empowered by their learning experiences.
