

The following document provides a summary of key links to support students, teachers and Guidance Counsellors as they explore virtual ways to learn more about their post-secondary options. This is a live document that will continue to be updated as new information and resources are shared by post-secondary institutions and supporting organizations.

*Originally created Fall 2020 and being revised October 2023.*

## Summary of Career-Life Planning and 4 Inquiry Questions:

Education and Career-Life Planning is a process that takes place throughout a student's educational career and invites them to question and explore to determine a pathway that is the best fit for them. This includes:

- Knowing Yourself
- Exploring Opportunities
- Making Decisions and Setting Goals
- Achieving Goals and Making Transitions

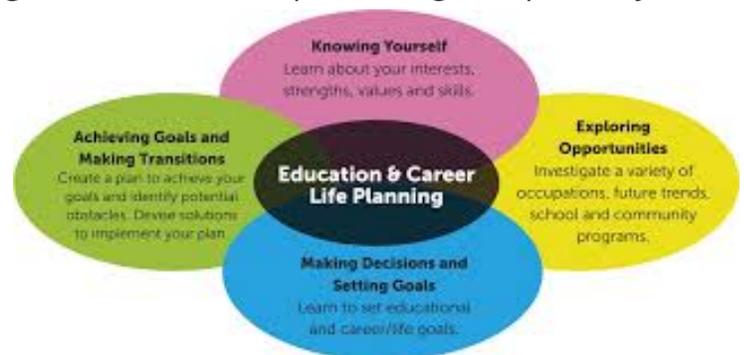

One of the most significant transitions a student will make is the decision to pursue a particular post-secondary pathway. The hope is that this process will be supported with information, opportunities, and guidance by those in the student's life that have their best interests in mind and work to ensure that all options are considered.

When students have discovered their strengths, interests, and skills, had the chance to explore academic, co-curricular, volunteer and employment opportunities, have the information they need to make decisions and set goals, and support to achieve those goals, we can feel assured they are as prepared as they can be to successfully transition to their first post-secondary destination.

## Important Suggestions/Reminders for Students:

Post-secondary pathway exploration can be an overwhelming process - so many choices and so much information to go along with each choice! In these unusual times, the challenge can feel even greater. In addition to using the information provided in this resource, you are encouraged to also:

- Take advantage of live/in-person opportunities that are offered to tour campuses and/or connect with students currently attending the institution/ experiencing that pathway (when possible to do so)
- Ask questions throughout your research process and make sure you understand the responses you receive - these are high-stakes decisions and you want to ensure you are well-informed

Return to [Table of Contents](#)

- Stay organized by keeping track of deadlines, documents, information reported to post-secondary institutions, and anything else that is crucial to your success as you prepare for this transition
- Connect regularly with your Guidance Counsellor - they are there to partner with you in this process and empower you to get the information you need to make decisions that are an appropriate fit for you
- Remember that this is YOUR journey - and it has to feel right for you! There is no one pathway that is better than another - comparison with friends or family will only lead to frustration. Stay focused on your plans and believe in the decisions you have made for yourself

## Additional Resources to Support Post-Secondary Exploration:

- **NEW FALL 2023- [Edge Factor](#):** Edge Factor is a video-based career exploration resource with thousands of videos featuring a wide range of career profiles and other topics related to education and career life planning. Students will access Edge Factor by logging into D2L Brightspace and then clicking on the Edge Factor icon under the 'Digital Tools' top menu.
- [myBlueprint Halton](#): myBlueprint is a comprehensive Education and Career Planning online tool that all HDSB students have been using since grade 7. HDSB students login into their myBlueprint account using their HDSB credentials ([student instructions](#)) and families can also create an account ([family instructions](#)).
- [Halton Pathways](#): a joint initiative of the Halton Public and Catholic boards, the website provides an overview of Pathway Program options for students in the Halton region. This includes Specialist High Skills Major Programs (SHSM), Ontario Youth Apprenticeship Programs (OYAP), College Dual Credit, and other specialty programs. Post-secondary exploration resources and other useful tools are also provided.

[Workplace](#)

### Apprenticeship:

The apprenticeship pathway invites students with a clear goal of entering a career in the skilled trades to 'earn while they learn.' The apprenticeship pathway typically takes students between 3-5 years and can begin in high school with their participation in an Ontario Youth Apprenticeship Program (OYAP) and/or a concentrated co-op program. Because this pathway can be very specific to the student pursuing it, it is highly recommended that students work closely with their Guidance Counsellor to create a plan that is well suited to their needs.

Website Link:	What will you find there?
<a href="#">ApprenticeSearch</a>	Apprenticesearch.com provides students with the opportunity to learn more about the 4 skilled trades sectors with detailed profiles of each designated skilled trade. Resources for both apprentices and employers are provided on the site.

Website Link:	What will you find there?
<a href="#">OYAP: Ontario Youth Apprenticeship Program</a>	OYAP.com provides a wide variety of resources to inform and support students who are considering an Ontario Youth Apprenticeship Program as part of their high school pathway planning. Targeted resources for students, families and employers are provided.

## College

College programs provide an effective combination of real life skills with quality education. Consider College if you find success in hands-on/applied curriculum, if you enjoy smaller classes and the personal approach to instruction or if you are interested in developing technical and occupational skills required for your chosen career area.

## University:

[OUAC Universities Reference Guide \(PDF\)](#)

The University pathway invites students to continue their studies in a focused area, courses tend to be theoretical in nature and involve critical thinking. Students will spend 3-4 years at a University in order to obtain a Bachelor's degree. More information about university programs can be found at [www.ontariouniversitiesinfo.ca](http://www.ontariouniversitiesinfo.ca). Application information can be found at [www.ouac.on.ca](http://www.ouac.on.ca) (101 Application for students applying directly from high school).

## Workplace

The Workplace pathway offers students the opportunity to put their skills to the test as a contributing member of the workforce while continuing to develop employability skills that will keep doors open to future opportunities. There are a variety of community organizations that can support students in finding employment opportunities and continue to build their resume and competencies while they are working.

Website Link:	What will you find there?
<a href="#">VPI</a>	VPI is an employment agency that provides certifications & training as well as a paid youth employment program

Website Link:	What will you find there?
<a href="#">YtoWork   YMCA of Hamilton   Burlington   Brantford - YMCA</a>	The YMCA's Employment Services support those who are 18+ and may be working part-time and/or attending school part-time. Long-term support with securing employment and building employability skills are goals of the service.

Website Link:	What will you find there?
<a href="#">Goodwill Career Centre</a>	The Goodwill Career Centre provides individualized service and various supports to job seekers. The Pathways to Employment Program for students 15-30 who are not working or attending school provides 5 weeks of paid employment, a 12 week employment
