

### **[The Employment Profile](#)**

So many choices: work, study, college or apprenticeship. Let us help you plan your future. The Employment Profile is an interactive, online tool that presents the 2011-2012 to 2015-2016 survey results from Ontario's Colleges of Applied Arts and Technology. We've posted the latest feedback from college students, graduates and their employers. Future college students – along with parents, guidance counsellors, postsecondary career counsellors, and employment advisors – can decide if college is the right choice and, if so, which program.
