- Individual Student Premium Programs Costs
  - Premium programs are priced separately based on customer requests. What we call a Premium Program would include any requests that cannot be easily managed under the Classic Program: such as requests to be the only international student in a home or requests for special meal accommodations/diets (for students with more than one allergy for example) or a set-up that requires regular support beyond the standard monthly contact provided.
    - If you have a special request, please contact us at [homestays@edcanada.ca](mailto:homestays@edcanada.ca) for more information and a quote that pertains to your special circumstances.

## Student Services

These include registration, placement fees, arrival orientation, 1 airport pick-up and drop-off, documentation for study permits, custodianship, monthly supervision, and access to our 24/7 emergency support line. These are included in all Individual Student Programs.
