  - d. P.L. Robertson projections are phased-in starting with grade JK-2 in 2022. (one grade added in consecutive years.
16. Small Group Discussion
- a. The BRC breaks out into smaller groups to discuss the options at 8:00pm.
  - b. The BRC comes back together as a group to discuss the ideas that came up in the small group discussions.
  - c. Comments from group discussion:
    - i. Option 1
      - 1. **Con:** Too many schools are over capacity.
    - ii. Option 2
      - 1. **Pro:** Max capacity is reached later.
      - 2. **Pro:** 2 dual track schools.
      - 3. **Pro:** Phasing of P.L. Robertson.
      - 4. **Pro:** Flexibility with ENG, FI schools.
      - 5. **Con:** Questions viability of FI with the schools.

6. **Con:** Milton 11 reaches max capacity early without a school to redirect to.
- iii. Option 3
  1. **Con:** Zone B and F - split school community.
  2. **Con:** Too many schools over capacity by 2025.
  3. **Con:** Counts on Milton 13 to be built quickly.
  4. **Con:** Does not like a split grade 8 split cohort.
- iv. Option 4
  1. **Pro:** Preferred zone A at PL Robertson.
  2. **Pro:** Milton 11 will not have enrolment pressures.
  3. **Pro:** Balanced, good spread of FI numbers.
  4. **Pro:** Neighbourhood model, walkable. Students are directed to their community school.
  5. **Pro:** Additional school to help with Hawthorne Village PS.
  6. **Pro:** FI uptake - Is one program outweighing another.
- v. What options should be removed, and why?
  1. Option 3 - split community, no relief for Milton 11 ps, enrolment pressures.
  2. Option 1
- vi. Which additional options should be explored?
  1. Zone F to Milton 12 or Viola for Option 3.

## PART 4

### 17. What's next:

- a. Adding another Boundary Review meeting.
- b. Additional Option Review

We reach max capacity later

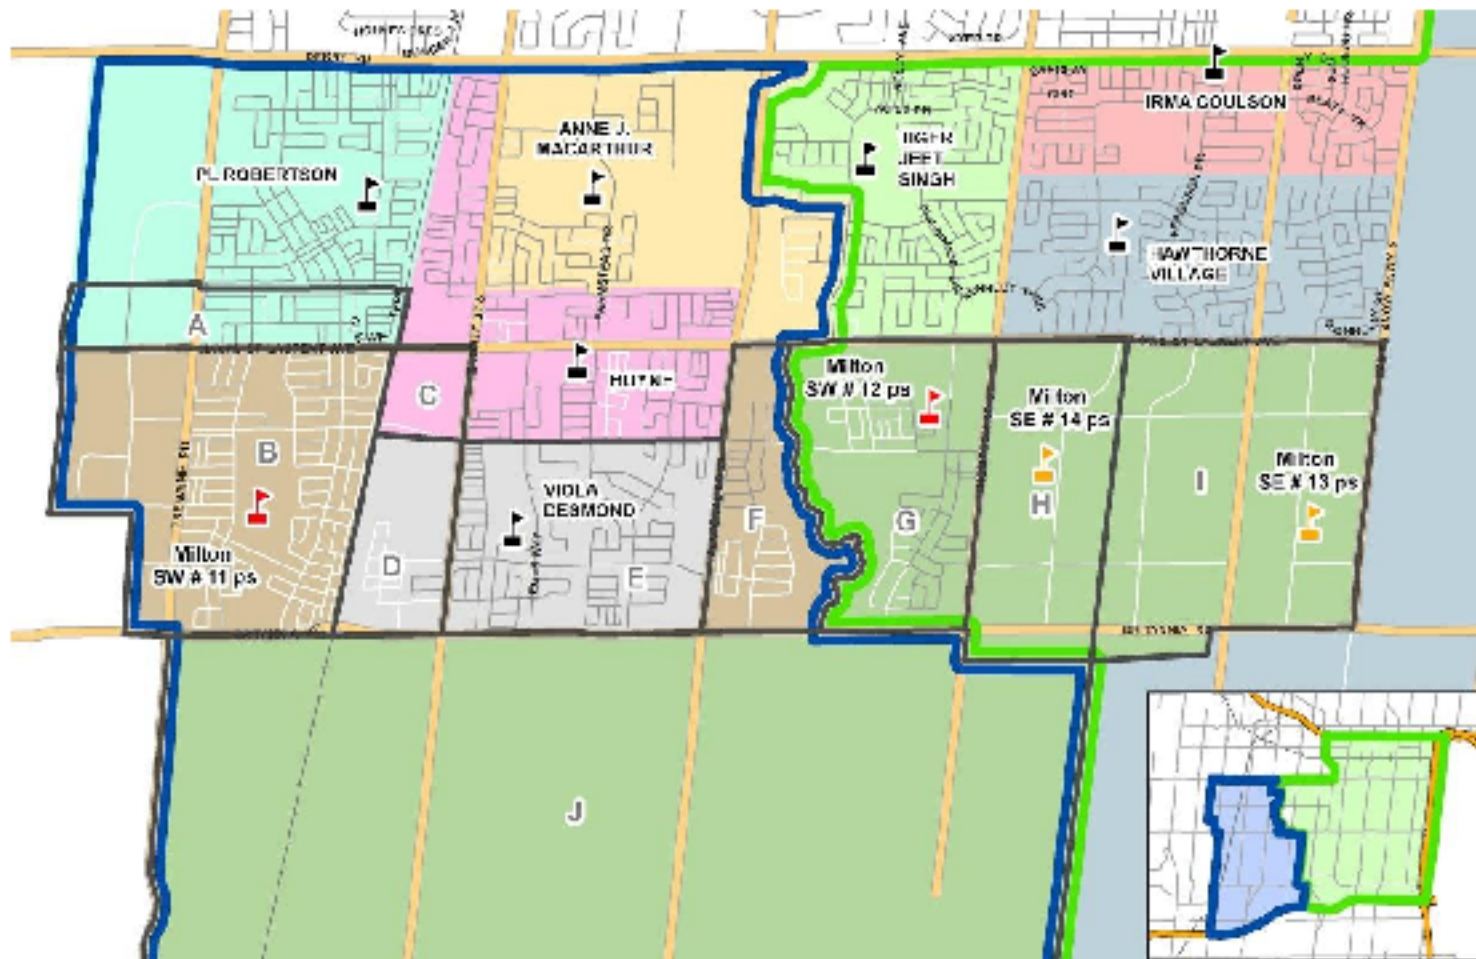

I personally prefer Option 2.

That sounds like a very good idea I like that they are phasing each transition in starting with Jk

# Group 2 - Option 2 :

English

French

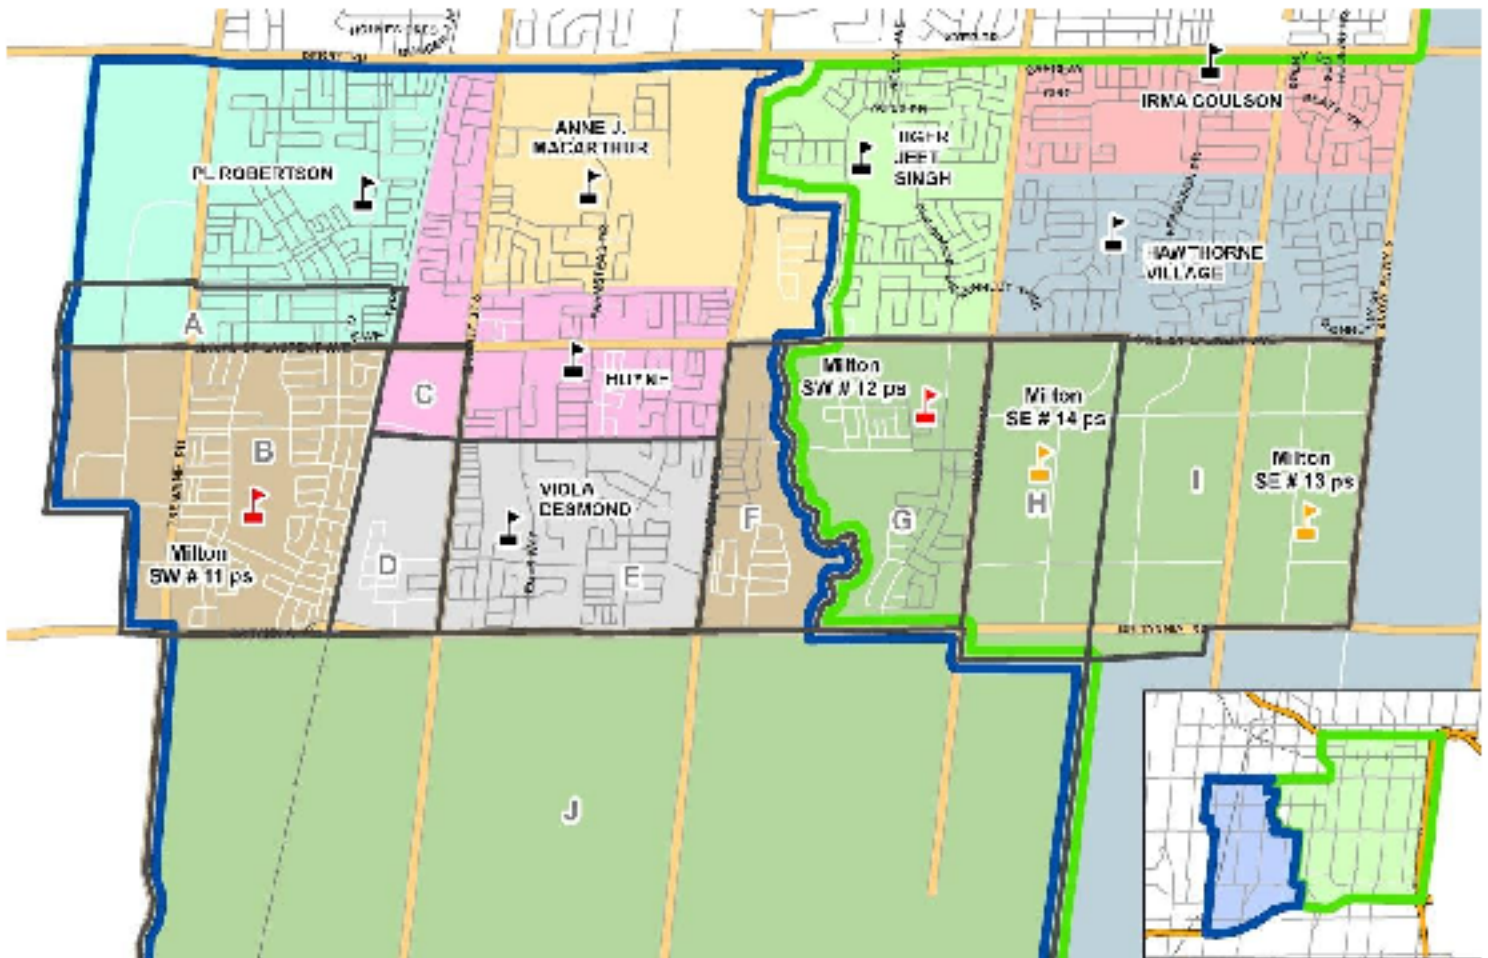

- Less over capacity in this option
- Flexibility of English and French in this option
- A lot more enrollment in Milton #11
- Taking a lot from Viola Desmond - declines quite a bit in enrollment
- 150-300 is a viable program for FI
- 3 FI schools south of Louis St Laurent
- Milton #11 hits capacity early and we don't have another school on tap in the west end

# Group 2 - Option 4:

English

French

Neighbourhood stays with neighbourhood

Not as restrictive for Viola Desmond as in Option 2

**French option**

Balanced enrollment numbers

French boundaries make sense - neighbourhood model based

Better spread of FI numbers

Total numbers on google sheet don't match numbers on jamboard

Looks best with anticipation of Milton #13 coming on board

Hawthorne holds east rural area and could have capacity issues. 6-7 schools planned for that area long term

Zone F isn't skipping over Viola Desmond to go to Milton #11 - it is close to Milton #12

Most of the area is walkable with a few impediments needing transportation until a walkway is put in place to Milton #12

Neighbourhood/Concession block model

Brings everyone back to their neighbourhood school boundary

Q1: Which Options should be removed, and Why?

# Q2: Which Additional Options should be Explored?

## Options?

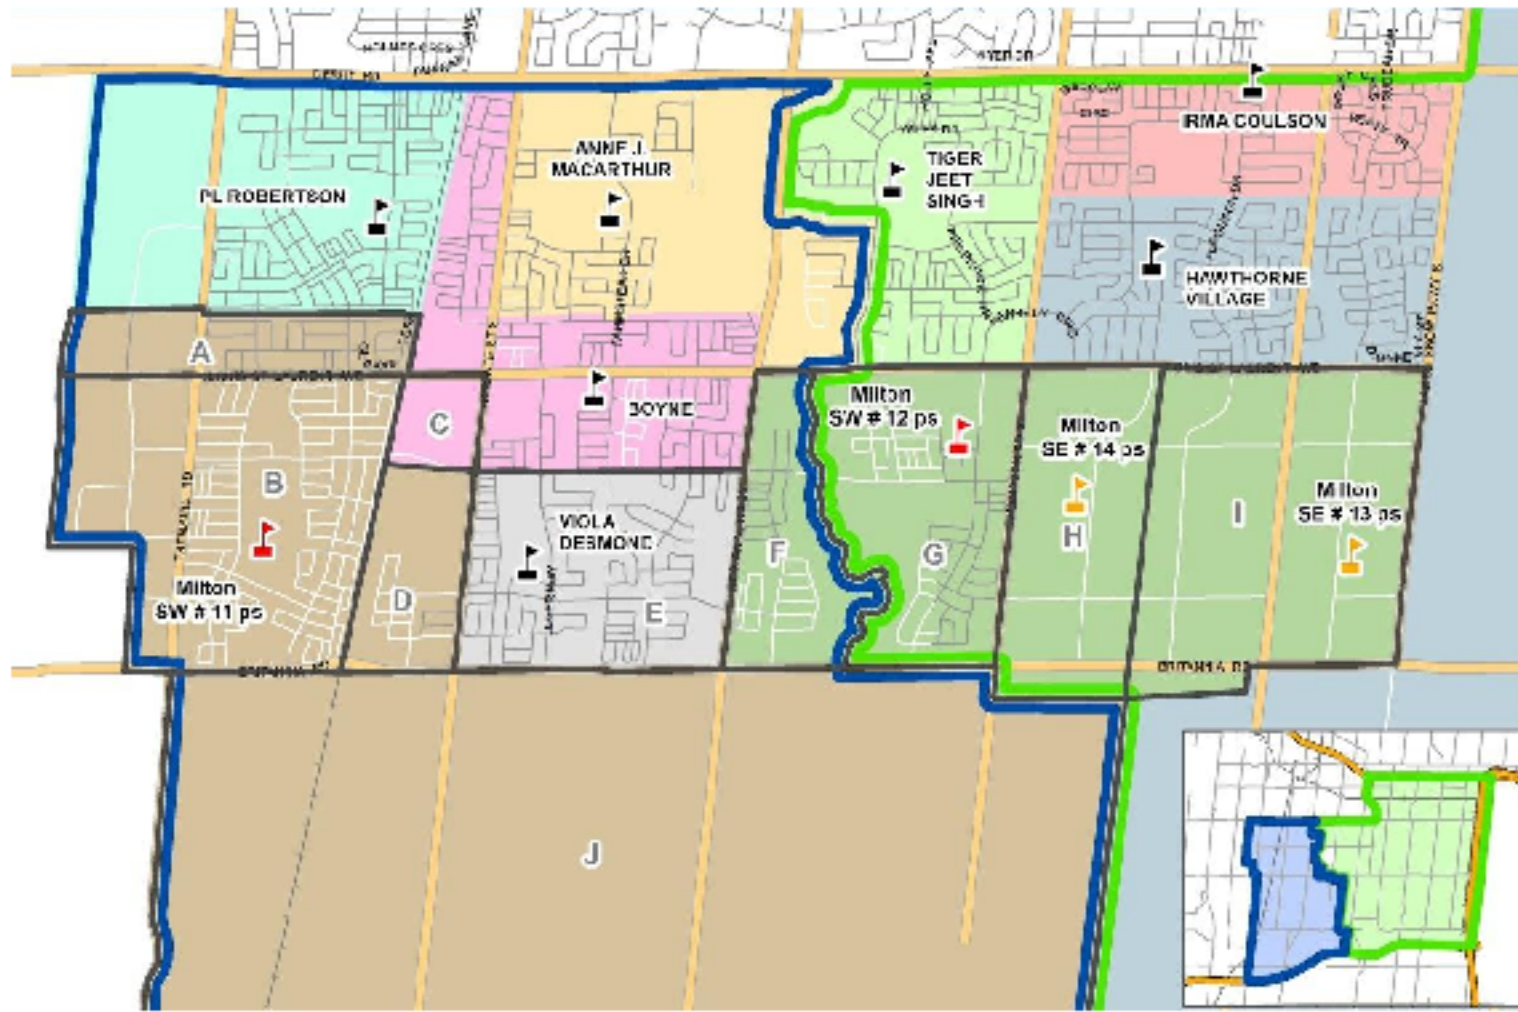

**Impact of Milton  
Christian School  
build at Tremaine  
and Main Street on  
HDSB numbers?**

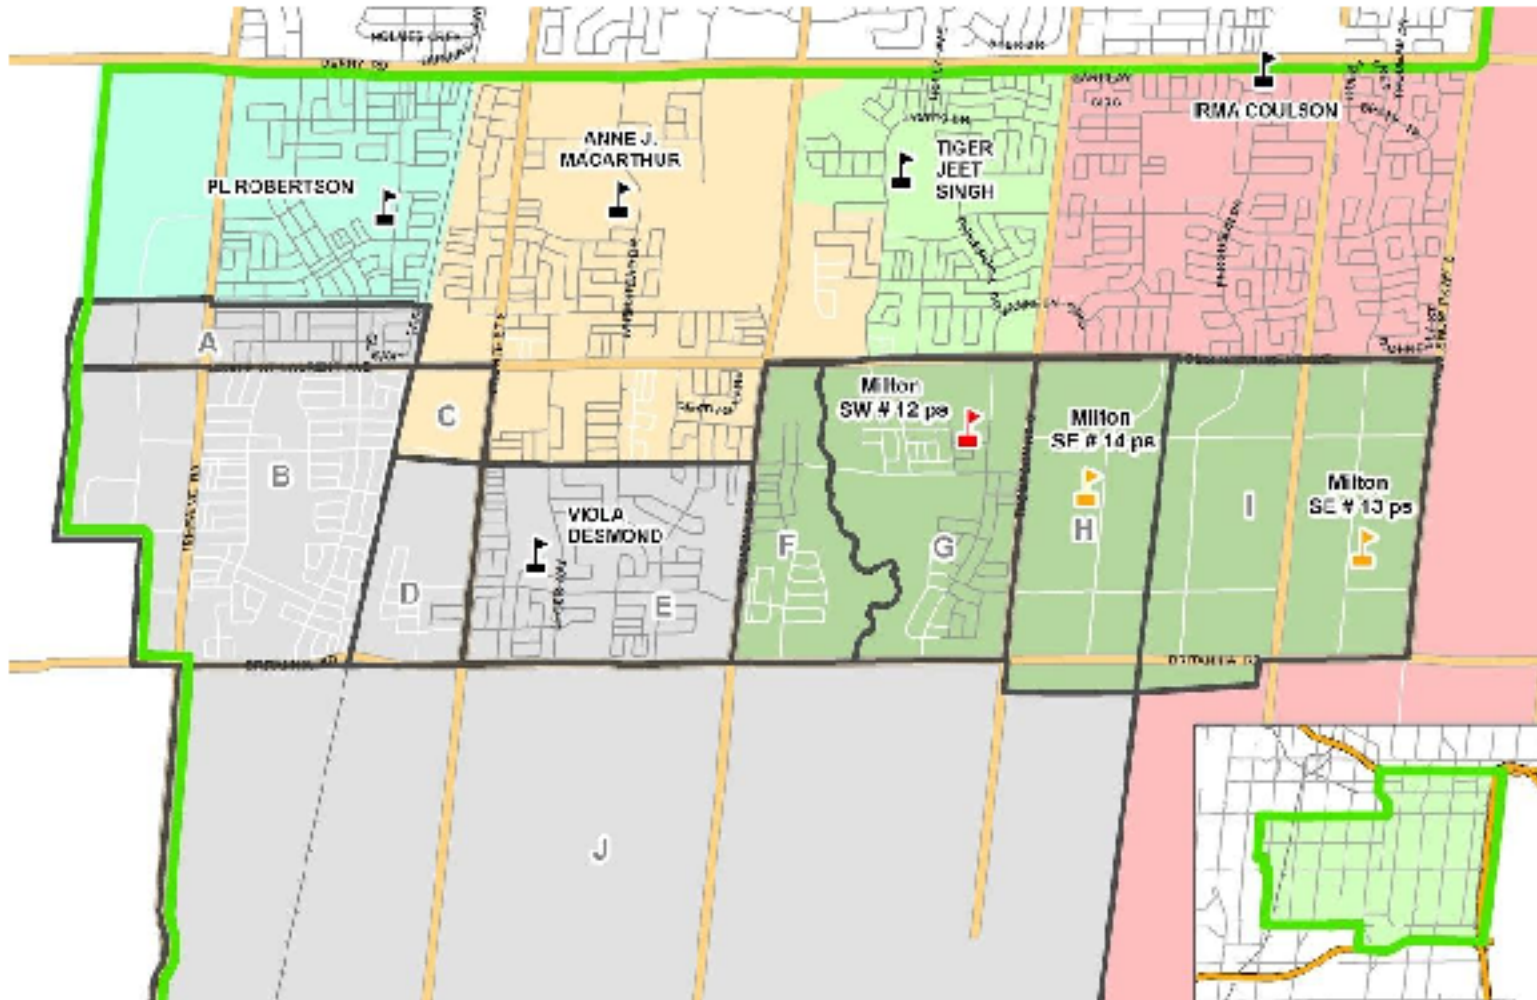

**Difficulty finding an  
option which works  
well for both Milton  
#11 and Milton #12**

# Group 3 - Option 1:

English

French

Number 12 overcrowded by 2024

Option 1 is not favored

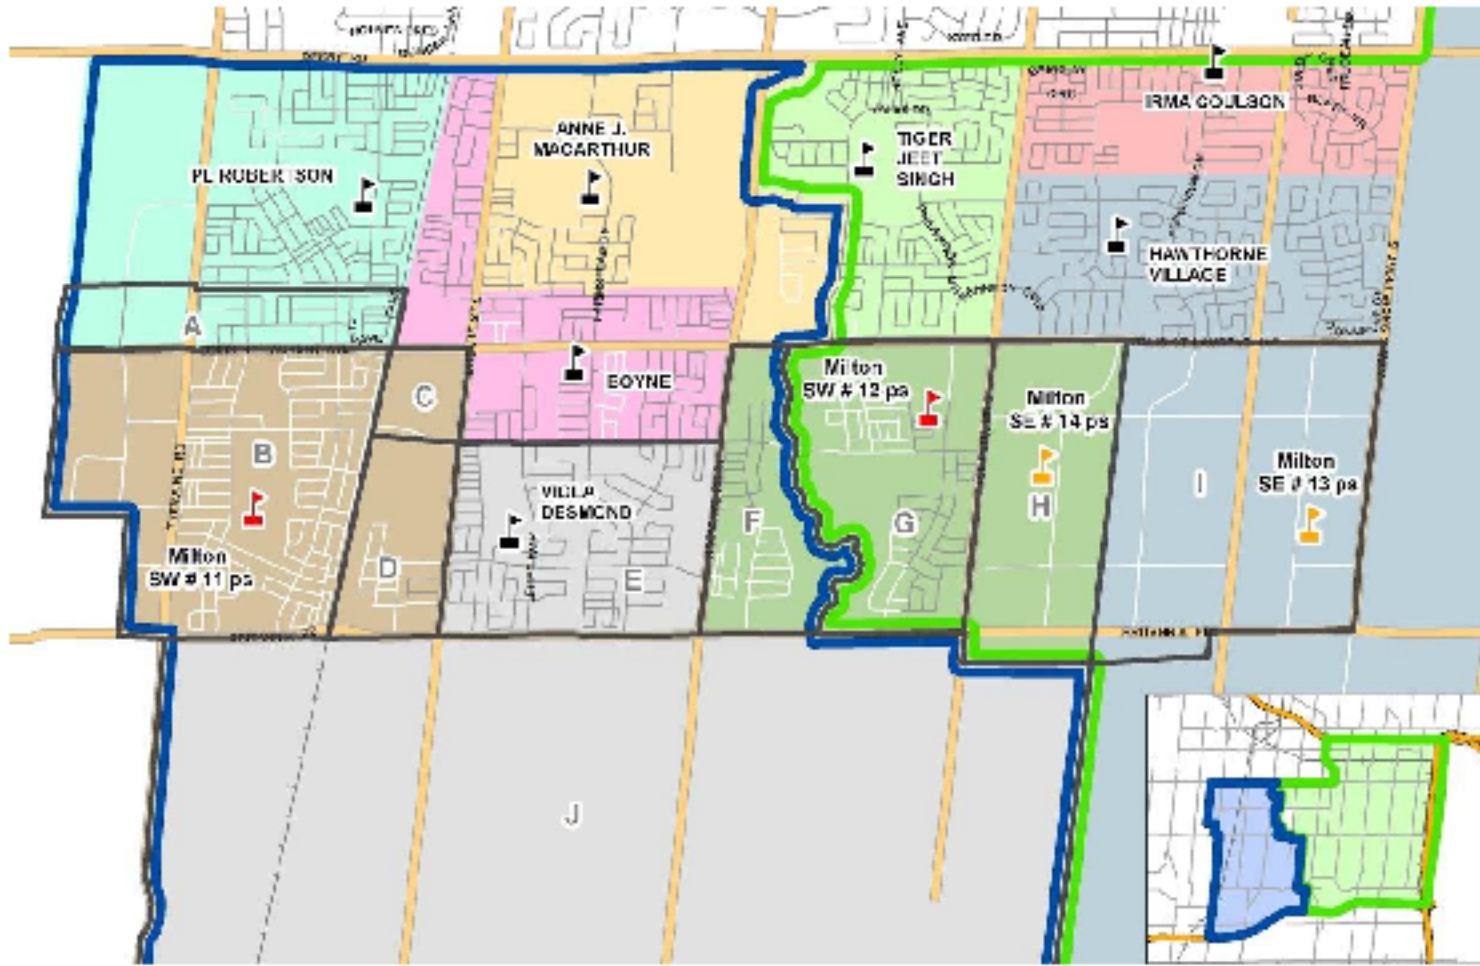

The confidence of building Milton13 in time is in question

Basically it is best to remove Option 1

# Group 3 - Option 2:

English

French

Better option than others with both schools being dual track

Better Option than 1 as schools will not be maxed out for a longer period of time

Though Boyne and Hawthorn are oversubscribed, they will not be all that much over

Great that Viola Desmond is taking the rural area

Zones that are affected are clumped together - not trying to deal with multiple areas

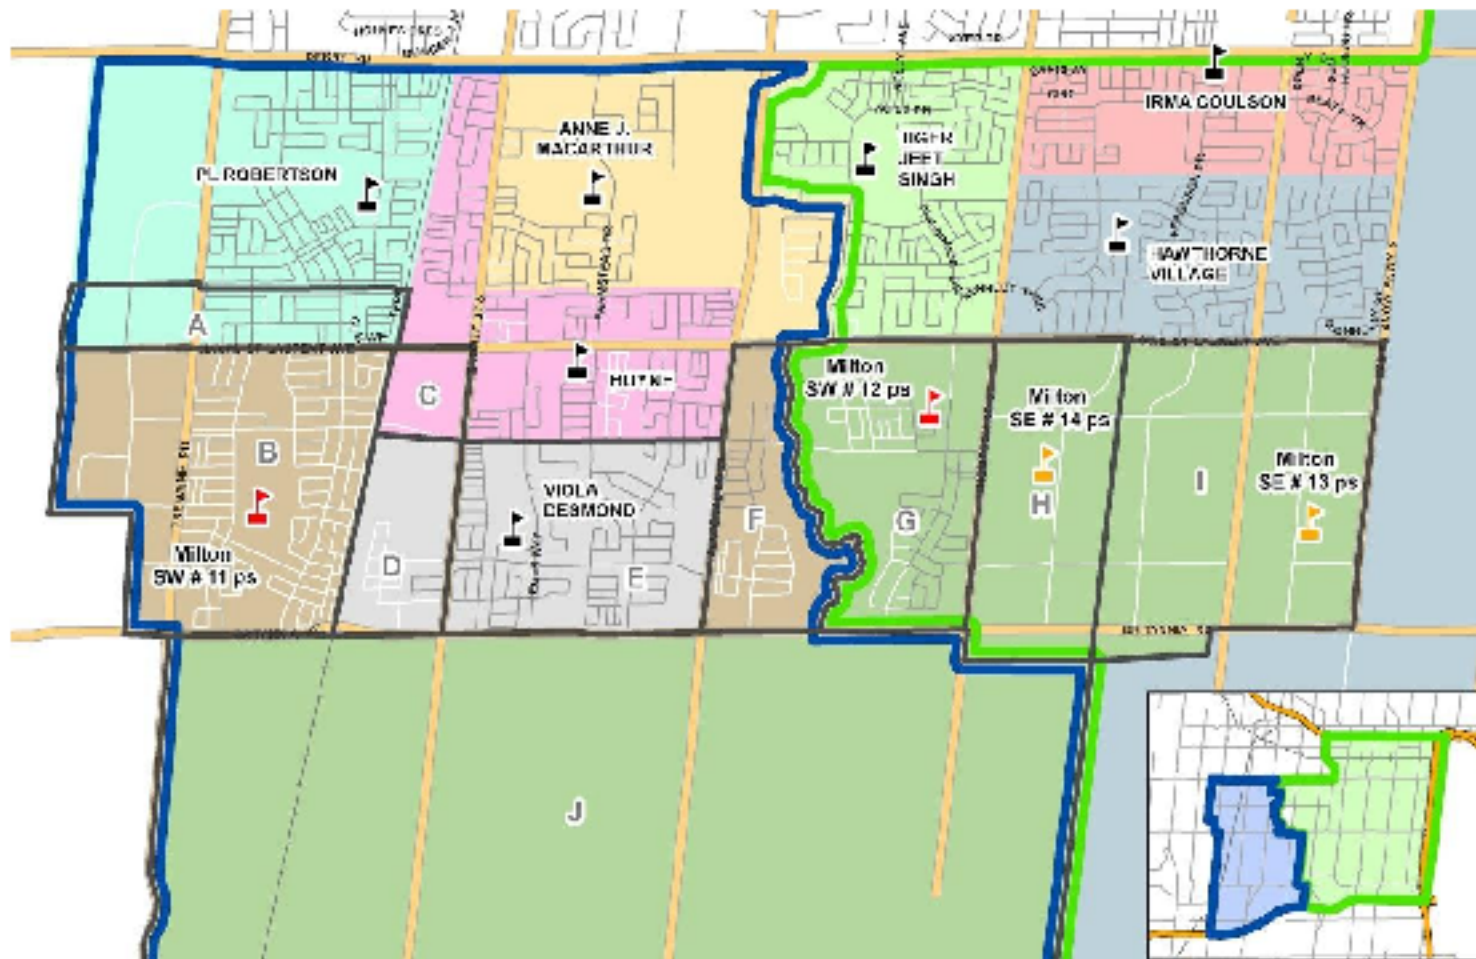

Don't really need to be overly concerned with Boyne

Concerns about phase in for PLR - that might deter from wanting this option

This includes a split grade co-hort (McGill / CK)

Split is very difficult for students

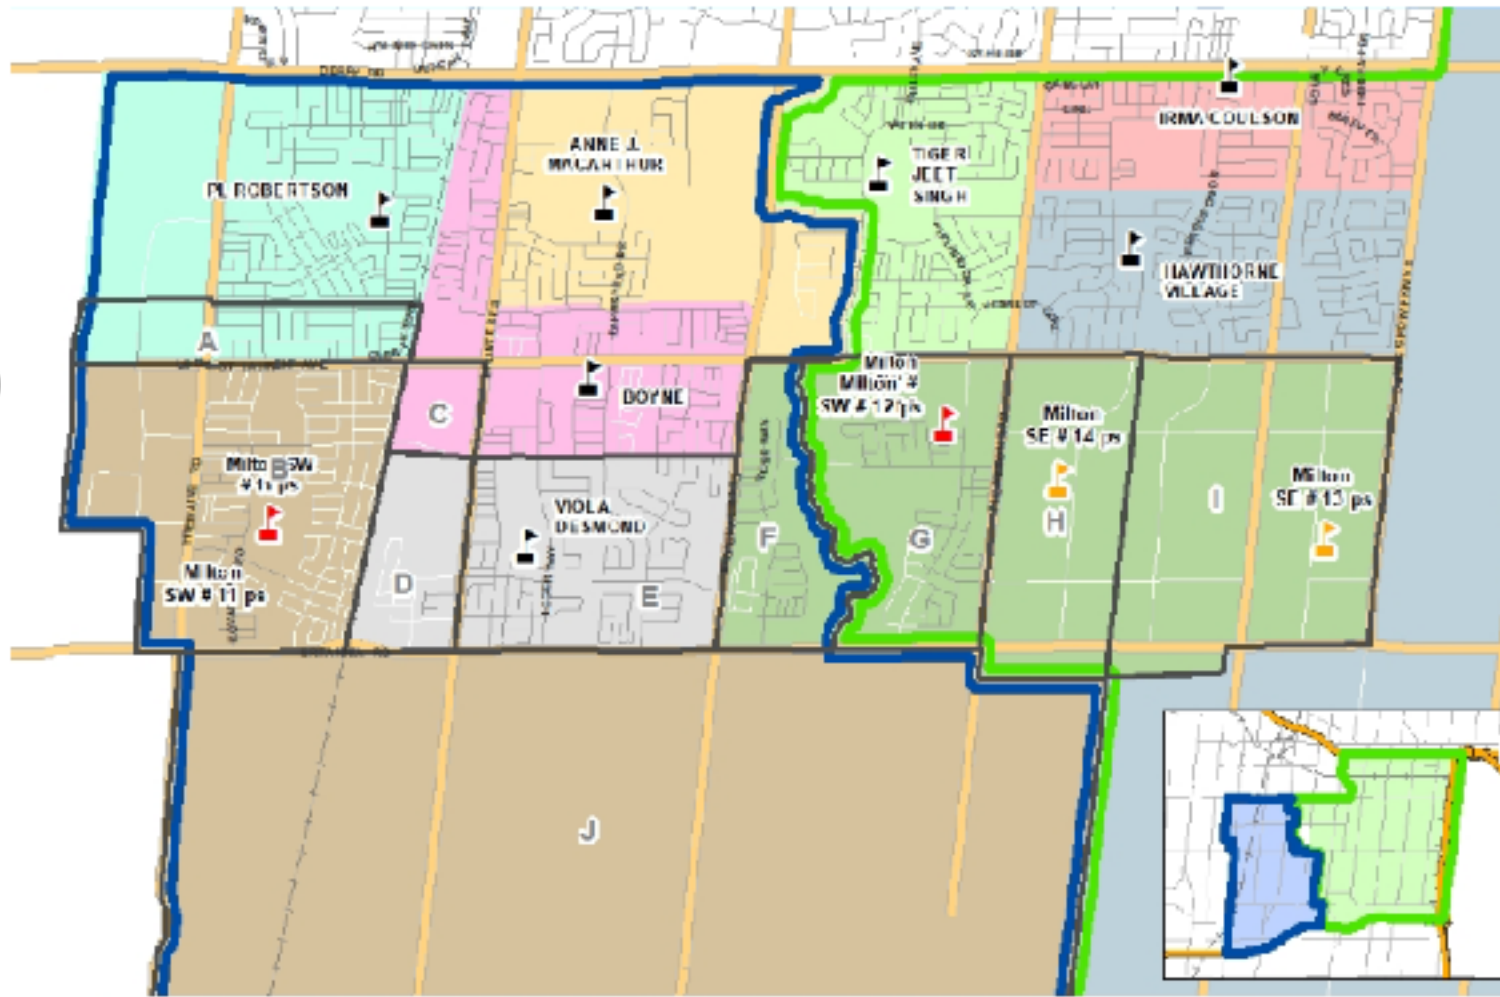

Viola Desmond will be above OTG even with portables

Milton 11 hits capacity very quickly

# Group 3 - Option 4:

English

French

Milton 12 reaches capacity by 2025

Very good option - capacities are balanced - all schools are growing.

Good to see Milton 11 under its capacity - which has not happened in other options

Hard to determine the best option overall because you have to rely on Milton 13 coming aboard.

Option 2 and 4 should be considered. Like that both schools have dual track.

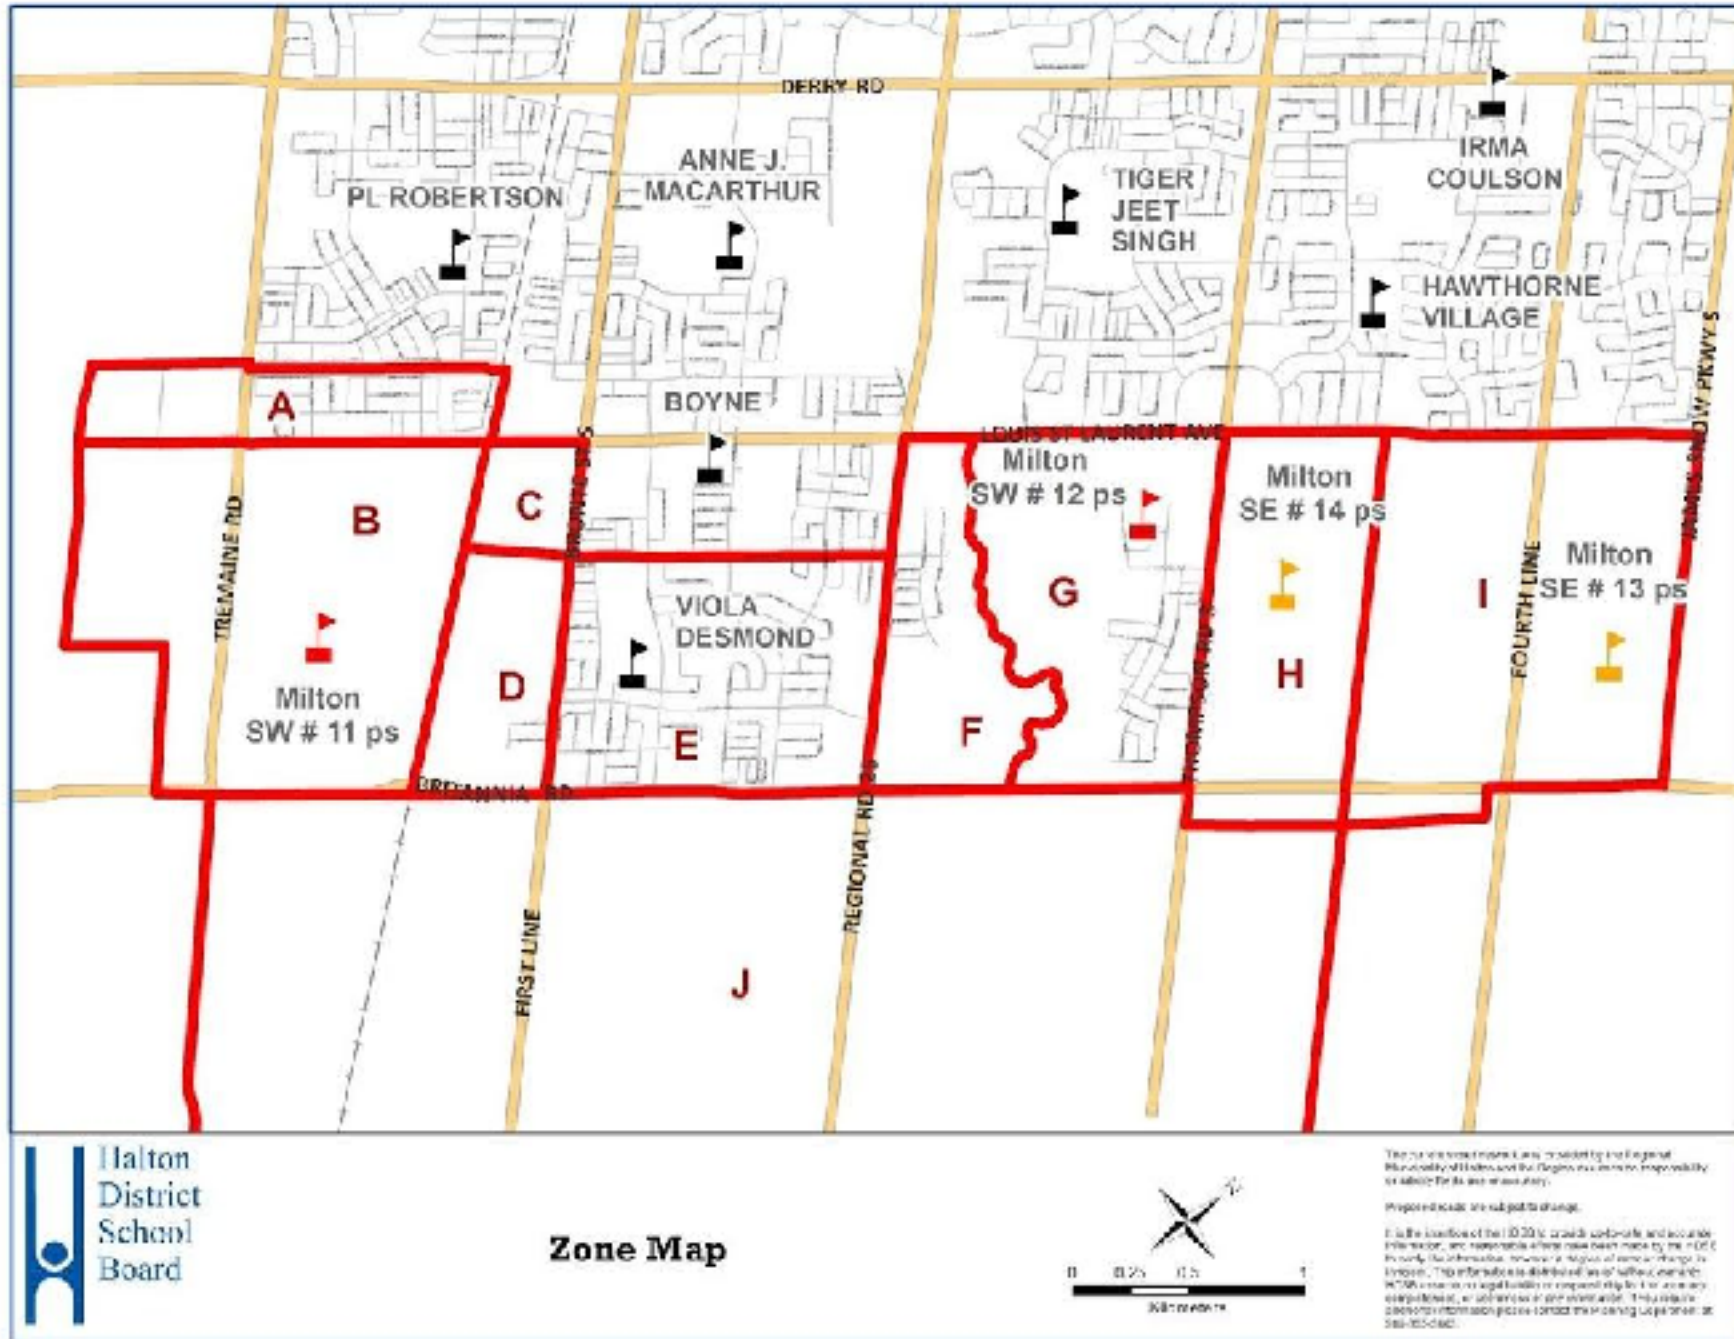

Option 1 and 3 should be voted off the Milton Island

# Option 2:

English

French

Like that max capacity later, preferred option 2

Like 2 dual track schools

Can we get data on the uptake for French

Likes the phasing of PL Robertson

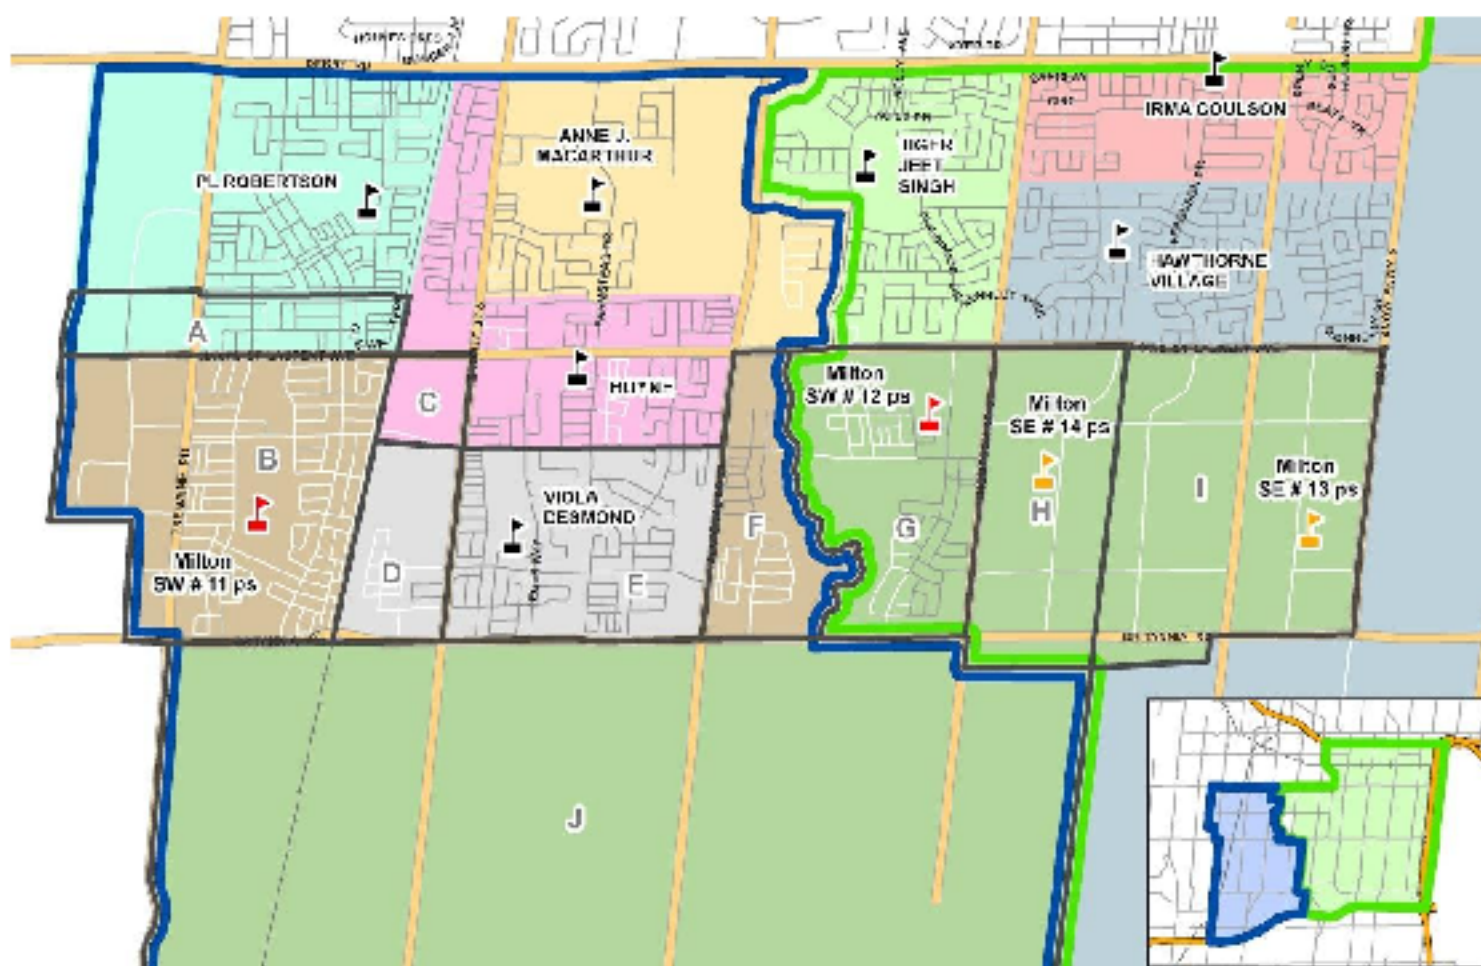

Less school over capacity, flexibility with ENG, FI schools, Lot of enrolment in MTI, questions viability of FI with the schools. MTI reaches max capacity early without a school to redirect too

Likes 2 dual track schools.

# Option 3:

English

French

Zone B and F - split school community (con). does not prefer the separation of zone F

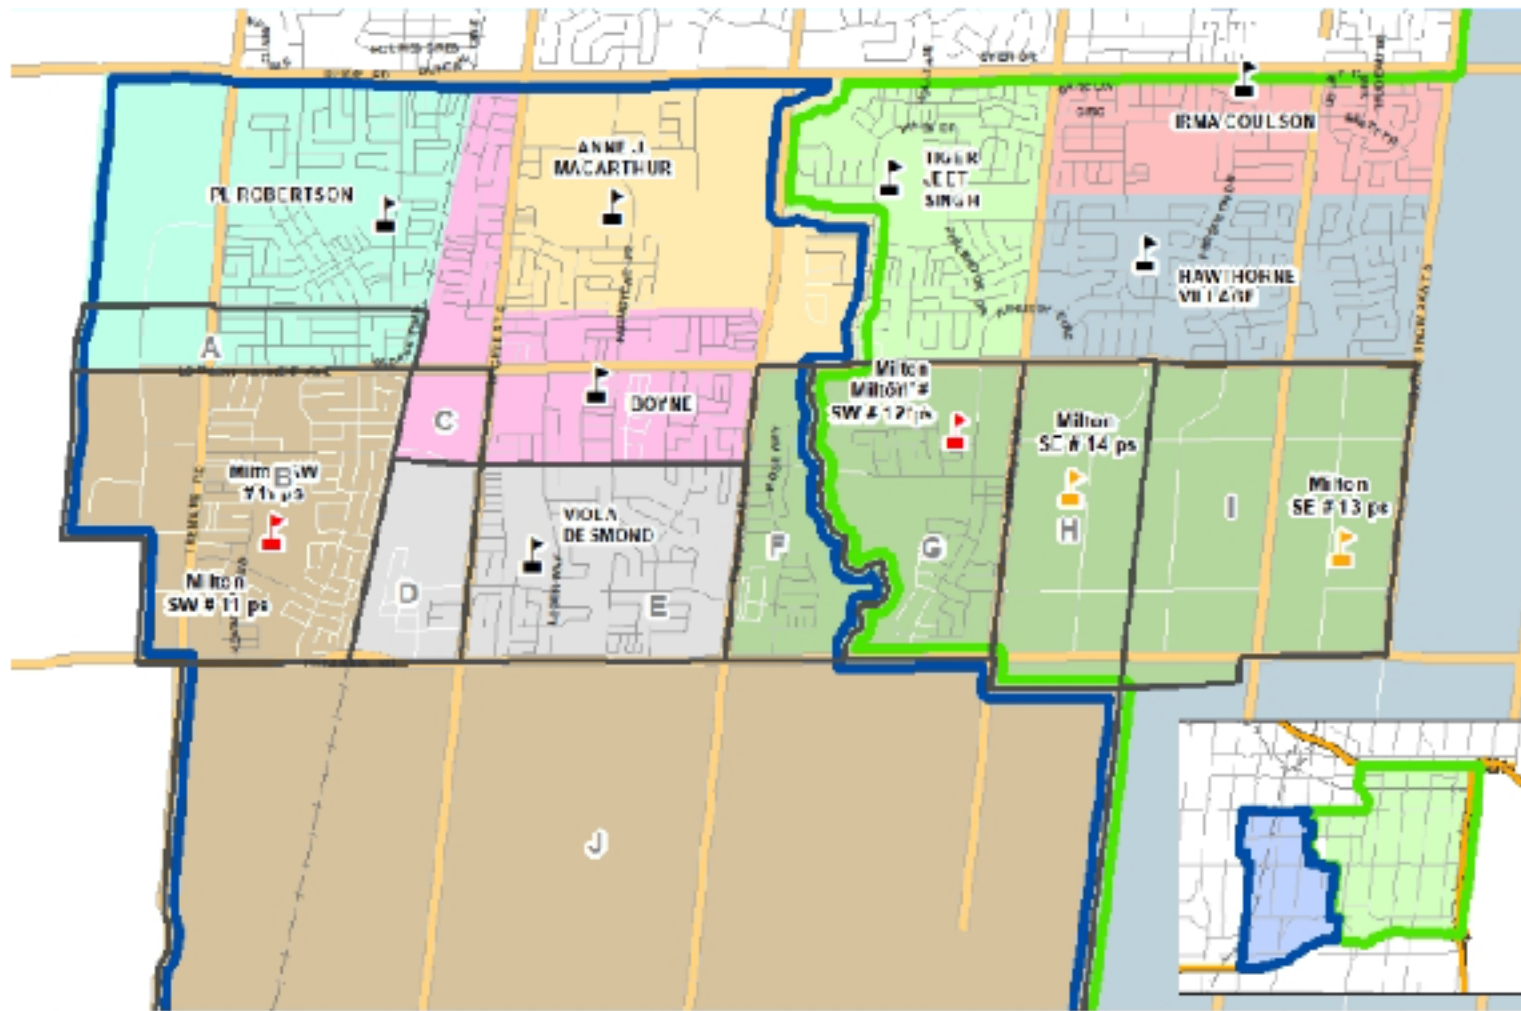

too many schools over capacity by 2025. Recommends to remove this option

Counts on Milton 13 to be built quickly - is worried that it will be a repeat of Viola. Does not like a split grade 8 split cohort.

# Option 4:

English

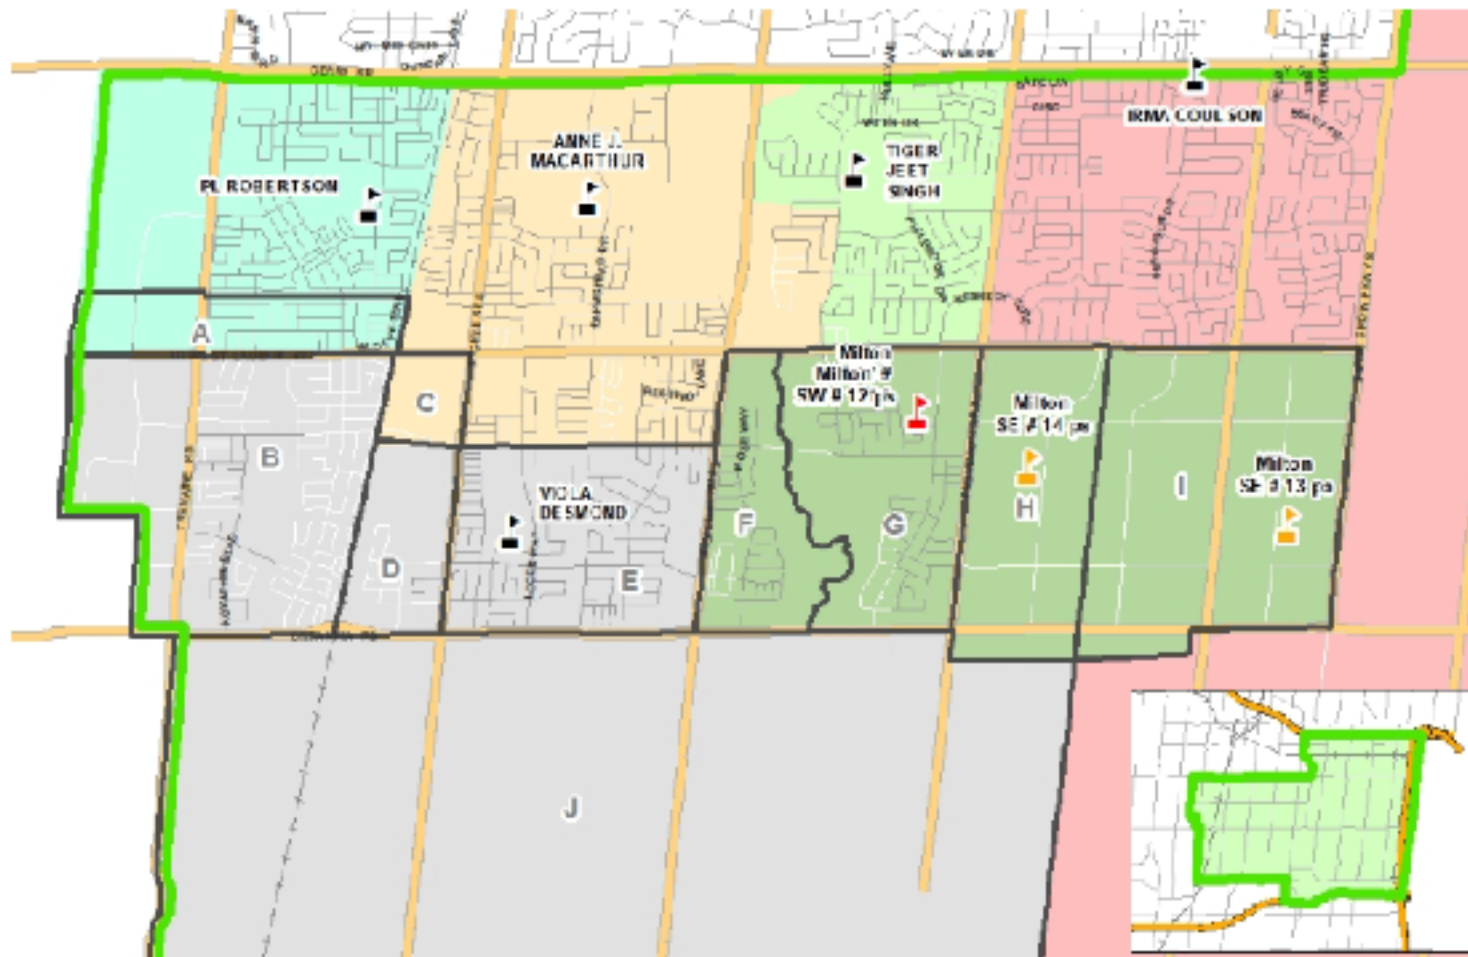

Most preferred likes zone A at PLR, MTI will not have enrolment pressures. Least amount of issues

Balanced, good spread of FI numbers. Neighbourhood model, walkable. Students are directed to their community. zone F is closer to a walkable school. Additional school to help with Hawthorne Village

Like 4, Boyne and Hawthorne are the only English schools. Numbers appear balanced. FI uptake - is one program outweighing another
